

SANIALARM®

Product Ref: 1095

The Sanialarm® has a level pressure switch that triggers an alarm fixed on the top of a unit if the volume of water exceeds the maximum allowed level. The alarm emits a continuous warning sound, until it is switched off and the problem rectified.

Why choose this product?

- Helps protect against flooding
- 80dB buzzer
- Added peace of mind
- Easy and quick installation onto lid of Saniflo unit
- Suitable for new and existing Saniflo installations
- Fits most Saniflo products – see product selector for details
